

# What School Clubs can do

By: Mallory Erickson

There are many school clubs that happen every school each year. Some school clubs that happen each year are the Art Club, Outdoor club, Science Olympiad and more. Many people were worried if those clubs were going to happen because of COVID. So many people run those clubs and keep them organized and wouldn't be very happy if they all got cancelled. It's like a sport getting cancelled for some kids, it means a lot to people.

Some clubs are important to the environment and important to other people and would be terrible if they did not happen due to COVID. For example, the Environmental Club helps clean up the earth to make it a safer place for everyone to live. There is also a club called "United Way" and this club is helping the homeless live a life through the virus we are living in right now. Imagine what would happen if they didn't let kids come together and help get the homeless money, food, and more. Some homeless people cannot even afford to buy their own masks. They are at a lot of risk of getting the virus.

Luckily since school is back in session they are letting most school clubs happen, they are just required to wear their masks at all times and to try their best to stay 6ft apart at all times.
